WORK EXPERIENCE

Esa Coding Lab

(04.04.2022 - 02.09.2022)

Full Stack Developer

Teamworking and managing our projects through agile scrum methodology. Parceling and distributing tasks inside the team in a suitable way. Planning our projects by doing pre-designs on figma, and uml diagrams, and sharing our code in a gitHub repository. Applying our projects using the most familiar web development concepts, on front end and back end sides.
